

# How we FLIP a classroom

## At Home

1. Students watch the video at [edpuzzle.com](http://edpuzzle.com) or on Canvas.

2. Students take guided notes.

Oh No!

I Forgot my notes!

What can I do?

1. Print from Canvas or the homework calendar.
2. Write them out by hand.

**Why Flip a classroom?**

- ~ More student engagement.
- ~ Students can watch and learn at their own pace.
- ~ Allows for differentiation.

## In Class

1. Correct the practice problems.
2. Turn in notes on-line.

3. Do "quick check" in Canvas.

4. Do practice problems.

Why didn't I finish my practice problems in class?

~ Was I on task?

~ Did I ask for help?

Check the Homework Calendar for assignments. Videos are due before class, and practice problems are listed on the day they are due.

Bring your own earbuds!
